A Case of Hydrophobia.

Alice Abbott, the colored woman who was bitten by a dog owned by Edward Thompson some days since, and who was fined \$10 and costs in the police court on Tuesday for keeping a dangerous dog, is now suffering from a well developed case of hydrophobia. After her return from the court on Tuesday she complained of great pain in her right hand, the one in which she was bitten. She was put to bed immediately, and Drs. Samby and Biley sent for on Wednesday. Upon their arrival they found her in convuisions, barking and howeing and betraying other symptoms of hydrophobia in its worst form. She passed a very resileas night Wednesday, and at times had to be held down by those attending her. Her arm has turned to a deep blue color, and upon being touched causes her to spring up and cry out as if in mortal agony. Yesterday she regained consciousness, and talked rationally, and last night seemed to be resting easier and slept most of the time. THE POTOMAC FLATS

ARE AT LAST TO BE RECLAIMED.

Major Twining's Plan for the Improvement of the River Front to be Substantially Followed--How the Western Part of the City will be Beautifled.

The following is the full text of the clause in the iver and harbor bill as it passed, providing for the

eclamation of the Potomae Flats: "Improving the Potomac River in the vicinity of Washington with reference to the improve-ment of navigation, the establishment of harbor lines, and the raising of the flats, under the direction of the Secretary of War, and in accordance with the plan and report made in compliance with the river and harbor act approved March 3, 1881, and the reports of the board of engineers made in compliance with the resolution of the Senate of December 13, 1881, \$400,000.

"And it is hereby reads the dury of the Atter-

"And it is hereby made the duty of the Attor-ney-General to examine all claims of title to the premises to be improved under this appropriation

ney-General to examine all claims of title to the premises to be improved under this appropriation and see that the rights of the government in all respects are secured and protected, and if he deems it necessary he is authorised to cause a suit or suits in law or in equity to be instituted, in the name of the United States, in the supreme court of the District of Columbia, against any and all claimants of title under any patent which in his opinion was by mistake or was improperly or illegally issued for any part of the marshes or flats within the limits of the proposed improvements."

ALTHOUGHTHE STEGLA BILL for the improvement of the Potomac River front has fallen through, and we must be content at this time with the appropriation above set forth, still this is an opening wedge of sufficient magnitude to indicate the ultimate complete improvement of our river front: the reclamation of the disease-breeding flats, and consequently the removal of the lathility to mainria in the western portion of the city, and the great beautification of that section of the National Capital. It is believed that the plan prepared by the late Major W. J. Twining, and which was fully set forth in The Republican in an interview with that officer several manils ago will be substantially followed, the modification being in regard to the cutting off of Easity's Point, Major Twining's plan contemplated cutting off a large portion of this points so that the line of frontage would be nearly straight from that point to opposite the arsenal. It is probable that a smaller amount of this point will be cut, and the frontage line will have to be curved in order to conform to this change. The space north of the Long Bridge will not be completely filled in and laid out for building purposes; but will be arranged in parks with

building purposes; but will be arranged in parks with

OHNAMENTAL LAKES AND FONDS
in continuation of the Smithsonian, Agricultural, and White House grounds. When this portion of the improvement shall be completed it will give miles of additional driving privileges, and will make that section one of the most beautiful parts of the city. Below the Long Bridge a winter basin will be formed of the present Washington channel which will be ample to accommedate the commerce of this city, and the point to be filled up between the extension of Fourteenth street and the western boundary of this basin will form a pennsula extending from Maryland avenue to opposite the arsenal and will be laid out for building purposes. The money appropriated now will probably be used in building the bulkhead, and it is likely that Colonel Abort, who has now the charge of the improvements of the harbors of Washington and Georgetown, will have control of the work. Major Lydecker, the Engineer Commissioner of the Datrict, said yesterday that he did not think the matter would again come before his office, but would be considered entirely by the War Department. A board of engineers will be convened to exactly establish.

war Department. A board of engineers will be convened to exactly establish THE LINE OF THE BULKHEAD, and when this is done the work will be commenced. Although for many years the necessity of some action looking to the improvement of the river front was felt, yet it was not until 1872 that any vigorous movement upon Congress to accomplish this was made; and the report of the board of survey, ordered by the act of March 5 of that year, set forth in emphalia terms the necessity for the work as a sanitary measure, and its advantages to the city in a commercial point of view. When that report was referred to the House District Committee that body entered upon an investigation, and was at once beset by a horde of those who were opposed to the improvements of the District that were then progressing under the energetic direction of ex-Governor Alexander R. Shepherd, and the protests of the number who claimed to own the liats defeated any appropriation save a pilifal sum of \$50,000, which was of no eartily use save as a recognition that \$0.000.

SOMETHING SHOULD RE DONE.

Before the matter could again be presented to Congress the obstructionists in the District succeeded in abolishing the board of public works and depriving the people of the services of the man who had a greater regard for their interests and a higher idea of what the National Capital should be than any other living person. The temporary government which succeeded was occupied principally in unravelling the tangle which the sudden abolition of the board of public works in what was supposed to be its full tide of success necessarily caused, and so nothing in regard to the river front improvement was done until the appointment of Major Twining as Engineer Commissioner. In a conversation with that officer but a few days before his death he told a representative of The Refutlicant that he had fully appreciated the necessity for the river front improvement, and had at last the satisfaction of knowing that his plan, over which he had spent four years of thought and study, had been adopted. To his energy, his persistence, and his careful study of the subject is and study, had been adopted. To his energy, his persistence, and his careful study of the subject is due the present success in the passage of the \$400,000, which will be shortly available to com-mane the work.

THE STAR-ROUTE TRIAL.

Newspaper Men in Contempt-Walsh Cor

rects His Testimony. When the criminal court opened yesterday Mr. Merrick moved for a rule for the appearance of A. C. Buell, the editor of the Capital, for contempt of court. He cited an article that appeared in that journal of July 23, in which he charged Walsh with perjury and falsehood, and used other abusive language respecting him. Also a rule for Buell, Helm, Hack, Ringwalt, and E. W. Brady, the trustees of the Critic, and Mr. Harris, one of the editors, to show cause why they should not be punished for contempt of court in their abuse of Mr. Walsh, ex-Attorney-General MacVeagh, and ex-Postmaster-General James. Counsel for the defense said that they might have something to say about newspaper abuse, and the court inti-mated that the press had little influence on the public. The matter was then dropped.

mated that the press had little influence on the public. The matter was then dropped.

MR. WALSH WAS PLACED ON THE STAND, and corrected some portions of his testimony. Henry Reighly, bookkeeper for Hatch & Foote, of New York, was asked to state Mr. Brady's account for April 12, 1820. Objection was made to this testimony, and Mr. Bias explained that Walsh had testified that Brady had asked him to deposit \$10,000 to his credit for him. He did not do that, but gave Brady a check for that amount on April 12. It was proposed to show that on that day Brady had deposited to his credit with Winslow Lanier & Co., \$10,000, and besides \$3,500. After discussion, the court decided to admit it, as it was all linked together, and a part of the confession. Mr. Wilson noted an objection. As the witness had not made the entry he was excused. Mr. B. U. Keyser testified, that on November 1, 1878, he found two promissary notes, one drawn by J. W. Dorsey & Co., and endorsed by S. W. Dorsey for \$1,509, also another similar note for a similar note for \$0,000, drawn by Miner, Feck & Uo., and endorsed by S. W. Dorsey, Another similar note for \$1,000, and also a similar note for \$2,500; all these notes were overdue and had been protested. They were secured by assigns on the pay due these parties as post-office contractors. In his collections he dealt with Yalle, Miner, and S. W. Porsey. AFTER RECESS MR. WILSON SAID:

AFER RECESS MR. WILSON SAID:

To save time they would admit that on April 7
Mr. Brady deposited \$7,000, and on the 12th \$10,000
with Hatch & Foote.

Mr. Bliss said they would put in certain record
evidence. The presecution was through with the
following reservations: Tae winnesses from Hatch
& Footes, who cannot both be here at one time.
There is a witness from St. Louis and another from
Narraganett Pier, who would testify to a single fact.
With this the presecution was through, with the
exception of ex-Sonator Speace. If neahould be
found before the testimony closed in the case they
would claim the right to examine.

Mr. Ingersoll suggested an adjournment until
Monday, but the Court would not consent, and
said the government witness could be called at
any time.

Well Done, Ohio,
At a meeting of the Ohio Republican Association recently held the following resolution was

AT THE SWAMP.

The Government Printing Establishmen and Its Management.

Although but a brief period has elapsed since the Hon, S, P. Rounds assumed control the Government Printing Office, he has imparted new life and improvement to every division of the vast establishment. Energy, order and system is perceptible on every hand. Captai H. T. Brian, whom Mr. Rounds selected as hi principal assistant, is a man of untiring energ and great practical experience. He has contributed his full share in bringing order out of chaos,
by inaugurating the improvements and reforms
already observable and so imperatively demanded
by the requirements of correct business management. The Government Printing Department in
extent—in the mount of work performed—in the
completeness of all the appliances essential to execute first-class printing and binding—is second
to no establishment in the world, and gives employment to an army of skilled laborers. The
work done there is of a complicated and diversified character, and ability of the highest order is
required to direct and attain the best results.
Such ability it was well known Mr. Rounds posressed when he was selected as the lead of this
great department; and his first act, that of appointing
CAPTAIN BRIAN AS HIS PRINCIPAL MANAGER, and great practical experience. He has contribu

CAPTAIN BRIAN AS HIS PRINCIPAL MANAGER, is evidence of his wisdom and experience. Captain B. has the general direction and practical supervision of the whole establishment, and under his system, with a less force and without a resort to extra hours of labor, he is enabled to execute more work than under the old order of things. The "saving at the spiggot and waste at the bung" policy has been cast aside, and a stop has been but to all leakages. No drones, no sinceures, no partial discriminations are tolerated; but discipline and an observance of correct business rules are demanded. The result shows that the employes are better contented and heartly indoes the reforms established. The most important division connected with the establishment, certainly during the sessions of Congress, is that CAPTAIN BRIAN AS HIS PRINCIPAL MANAGER, certainly during the sessions of Congress, is that devoted to the publication of the Congressional Record. Mr. M. D. Helm has been placed in charge of this division. Here again has excellent judg-ment been displayed. He is an eminently prac-tical man, possessing great energy and fine execu-tive ennacity.

UNDER MR. HELM'S MANAGEMENT UNDER MR. RELI'S MANAGEMENT
the Public Printer will not be constantly annoyed
with complaints from Senators and Representatives as to delays, and in regard to errors and defects in the Record. Radical changes have been
made in all the divisions. Live men have been
selected as foremen and assistant foremen; vigorous blood supplants sluggishness; all clearly indicating that Mr. Rounds is determined that the
government printing establishment, whilst being
the largest in the world, shall at the same time be
the fivest and most complete in all its appointments and management.

MUSICAL FESTIVAL.

The Excellent Programme to be Rendered at Cape May To-Morrow and Sunday, The musical festival at Cape May to-morrow and Sunday, of which mention has already been made in The Republican, bids fair to be one of the most stractive that has been held for many years, Many who have contemplated visiting the Cape during the summer will hasten their departure, so

as to be present, and others, lovers of music, will make a special trip for the purpose. Sunday will be the principal day, and the programmes will be as follows: In the afternoon at £30—Overture, "Festival," Leutiner; romanza, "Un Angelo d'Amore," Geraldi, Mr. Paul Kirchner; selections, "Aida," Verdi; solo cornet, "Ave Maria," Schubert, Mr. M. Arbuckle; selections from the "Creation," Hayden; (a) duet, "Graceful Concert," Miss Anna L. Fuller and Mr. Max Heinrich; (b) chorus, "The Heavens are Telling," the festival chorus and orchestra. Part second—Overture, "Rienzi," Wagner; aria, "O, Mio Fernando," ("La Favorita,") Donizetti, Mr. S. R. Well; selection, "Frupt, Gonnod, grand orchestra and military bands; prayer, "Moses in Egypt," Rossini; solo festival, chorus, orchestra and military bands; coronation march, "Prophet," Meyerbeer; cornet obligato, by Mr. M. Arbuckle; festival chorus and military bands. as to be present, and others, lovers of music, will

Mr. M. Arbuckie; featival chorus and military bands.

There will be another grand concert in the evening at 8 o'clock, at which will be rendered the following programme: Fart first—Overdure, "William Tell," Rossini; solo cornet, "Tantom Ergo," Mercadante, Mr. M. Arbuckle; aria, "Angels Ever Beight and Fair (Theodora), Handel, Miss Anna L. Fuller; chorus, "Halfeligiah" (Messiah), Handel, fesilval chorus and orchestra, Part second—"Stabat Mater," Ressini; selections, (o) introduction and chorus; (b) aris, "Conjus Animan," Mr. Faul Kirchner; (c) duet, "Quis est Home," Miss Anna L. Fuller and chorus, "Pro Peccati," Mr. Max Heinrich; (c) aria and 'chorus, "Inflammatus," Miss Anna L. Fuller and chorus. Part third—Grand torchlight march, Meyerbeer; cornet obligate by Mr. M. Arbuckle, festival orchestra and military bands, national anthem, "American," festival chorus, orchestra, and military bands. The entire audience is requested to sing in this anthem. Conductors, Mr. Simolines, Mr. Carl Lentz, and Mr. J. F. Zimmerman. The Fennsylvania Railroad will soil round-trip tickets for \$9.50, and trails will leave the Baltimore and Potomac depot at 8 a. m., 6:30 a. in., and 10:30 a. in.

Ned Donnelly Heard From.

A reporter called upon Mr. Edward Donnelly last night to ascertain if he had anything to say in regard to the charge of his pleading the "baby act," as published in the Critic of last night, by Mr. Collins, the "east-fron man." Mr. Donnelly Mr. Collins, the "cast-from man." Mr. Donnelly said: "I have just read the article in the Critic, and as for Mr. Collins charging me with pleading the baby act. I will issue the following: In reference to the article published in the Critic of tonight that I intend to plead the 'baby act,' I am willing to either spar Mr. Collins with gloves according to the Marquis of Queensbury rules, or ngot him within 100 miles of Washington for from 500 to \$1,000 a side, within ten weeks from the date of signing of articles. To make good what I say I will deposit \$25 with Mr. Charles G. Godfrey to meet Mr. Collins under either of the above propositions."

Another Park on Capitol Hill. Colonel Rockwell, commissioner of public sulldings and grounds, expects to commence the buildings and grounds, expects to commence the work of improvement on resorvation No. 17, which lies directly south of the Capitol, as soon as the sundry civil appropriation bill becomes a law. The estimated cost of this improvement is \$150,000, but this bill appropriates but \$20,000 for the commencement of the work. This reservation comprises about forty acres, and extends to the Carroll and Duddington estates. It will be made into a beautiful park.

The Dodge in Virginia. The Bedge in Virginia.

The action of the Republican State committee of Virginia in nominating a colored man for Congressman-at-large meets the hearty approval of the Democratic loaders. It is hoped that the nomination will attract a considerable colored vote from the Liberal telest. The dodge is so palpable that it is not highly to do that party harm unless the very close, which is not at all likely to be the Case. The Rev. Mr. Dawson is quite sick at his home in Williamsburg.—Philadelphia Press. LOCAL MENTION.
